ABOUT ME

I'm a UX/UI Designer & Front-end Developer based in Glasgow, UK. Fueled by a passion for design, I love creating interfaces that transform everyday interactions into delightful experiences, crafting user journeys that inspire, engage, and connect.

EDUCATION

APTECH LEARNING

Higher Diploma Software Engineer (2010)

Completed an intensive Software Engineering program focusing on object-oriented programming (OOP), Web/Mobile application development, and database management. Acquired a strong foundation in the Software Development Life Cycle (SDLC) and core technologies such as Java, .NET, and SQL Server.

EXPERIENCE

WEB DESIGNER

HV Studio (2010-2015)

Responsible for designing, prototyping, and converting website interfaces into functional front-end templates using HTML, CSS, and jQuery.

E-COMMERCE MGR

Northern Saigon Hotel (2015-2025)

Responsible for maximizing direct online revenue through strategic management of the hotel's website, booking engine, and all third-party online

UX/UI DESIGNER

Freelancer (2025-present)

Specializes in translating client requirements into intuitive and aesthetically pleasing digital products.

TRAINING

GOOGLE UX DESIGN

Nov 2025

Completed the eight-course program focusing on the end-to-end UX design process: conducting user research, defining user journeys, creating low-fidelity wireframes, prototyping, and executing usability testing to create accessible digital products.

PHILOSOPHY

Every design has a starting point, and for truly impactful visuals. It's the narrative that guides the creative process, ensuring the final product resonates with meaning and purpose. I believe that understanding the story is paramount.
